Becoming an Immigrant Welcoming Congregation

The United States is a nation of immigrants, continually reshaped by new groups of people bringing diverse cultures, perspectives, and resources. Yet immigration has become one of the most emotionally charged and polarizing social and political issues.

Immigration is a core issue for faith communities. The Bible is full of stories of people on the move, and continually shows God's concern for the migrant and the outcast. Churches have been in the forefront of those who have supported and spoken up for the more recently arrived members of their communities.

Come to this event to find out how your church can become more welcoming to the immigrant neighbors in your community. Be inspired by stories of what other congregations are doing. Bring back useful information and resources for education, advocacy, or service that is appropriate to the needs and readiness of your congregation. No matter how much, or how little, your church has been involved with immigrants and immigration issues, these plenary presentations and workshops will help you move forward with courage, justice, compassion, and solidarity.

This event is co-sponsored by the Wisconsin Conference - United Church of Christ and the Wisconsin Council of Churches, in cooperation with SOPHIA of Waukesha County, and is open to all churches.
