

1. Single-sided - This would be the easiest to print (landscape format) and use.
 2. Booklet version - To assemble a folded, 3-pg. booklet version, you'd print in landscape format:
 - a. The "cover" pg.
 - b. On the back of that pg. print the Intro & chap 9 sheet
 - c. From the Chap 1-8 doc print the Climate Changes pg. On the back of that sheet print the next page, a Bright Future
 - d. Print the next two pgs back to back also.
- It should be obvious as to how to fold the 3 pgs into a booklet.
