

NWA Creation Care Grants 2021 – Application Form

The Northwest Association of the Wisconsin Conference, UCC, in an effort to lift up the high calling of being faithful stewards of God’s creation, is making grants available to NWA Congregations that are taking steps to positively change their relationship with the environment. These changes can be small or large, they could focus on energy use levels, renewable sources of energy, conservation efforts, recycling efforts, resources management, etc. The NWA is trying to encourage churches to act out their calling to be faithful stewards of what God shares with us.

Grant requests can be up to \$1,000. The grant can cover the full amount of the project, or a portion of the project with the church and other sources funding the remaining costs.

Congregations who receive grants are required to make a report at the time of the completion of their project. The report should include photographs, description of what was completed, narrative of how the project is impacting the congregation, who was involved in the project and a scripture passage that illuminates the church’s spirit of creation care.

Grant requests will be considered at the time they are received, awards will be made within one to two month time following the receipt of the request. Funding for these grants comes from NWA church per capita contributions.

Required Grant Information

Name of church and location: _____

Contact person and information: _____

Address: _____; email: _____; phone: _____

Description of project (include details, attach extra sheets if necessary): _____

Time period for project completion: _____

Amount of grant request: _____; Total project cost: _____
