Catalyst Grant Application

Prior to submitting your proposal online, prepare your answers to these questions. The application software does not save partial applications, meaning you cannot come back later to finish a proposal. It has to be done all at one time. Prior to beginning your application, be sure you can answer all of these questions AND have a detailed project description (see item 15) AND a letter of support from your congregation's leadership team (see item 16) ready to be uploaded into the software.
